INTRODUCTION

PUBLIC AND ASSOCIATION LIBRARIES STATISTICS 1988 is compiled from information supplied by public libraries and systems throughout New York State. Forms were sent by the New York State Library to the designated systems and libraries in November 1988 with the request for return by February 1, 1989. Ninety percent of the completed forms were returned by April 14, 1989 and the last report was received in complete and correct form on July 31, 1989. Data were verified at system headquarters and at the State Library. The data were compiled on the Division of Library Development Computer and the printouts thereof constitute statistical tables II, III, IV, and V.

Statistics for the 731 libraries in systems are grouped by system in Table III and those for the three libraries which are not members of systems appear on Table IV. To help the user locate information on specific libraries, indexes of counties and libraries appear in appendices. Summaries of the 1988 statistics appear in Table II and are compared with those of earlier years in Table I.

Education Law and Commissioner's Regulations require the submission of annual reports by all libraries and systems in order that they retain their registration status and be eligible for public funding. It is our hope that the publication of these statistics will be helpful to library administrators and staff, to members of governing boards, and to others who make decisions on library resources and services.

We thank all persons who supplied and all who assisted in verifying, checking, and compiling it. Accuracy is critical to the usefulness of this publication and notes of omission and errors are invited.

REFERENCE NOTES

TABLES I, II, IIIB, IIIC, IVB

All 1957, 1986, and 1987 figures were taken from TABLE I, Public and Library Association Statistics, for designated years.

1957 is used as the base year since this is the year preceding the 1958 State Aid Law, which provided for the establishment of the cooperative systems comparison.

"Population Served by Systems and Nonsystem Libraries." Taken from the 1980 Census of Population and Housing, Final Population and Housing Unit Counts, issued March 1981, revised March 1983, U.S. Department of Commerce, Bureau of Census; school district population as prepared 5/14/84 by the New York State Data Center, NYS Department of Commerce, using the 1980 CENSUS OF POPULATION AND HOUSING.

State Aid received under Education Law, excluding administrative costs of the New York State Library.

Adjusted Disbursements exclude Cash Grants to member libraries from the system Total Disbursements and disbursements for Contracts With Other Libraries from system and member library Total Operating Disbursements.

GENERAL

Brooklyn, New York, Queens Borough include both system headquarters and branch libraries or central library on all tables.

Ulster County is served jointly by Ramapo-Catskill and Mid-Hudson Library Systems.

Central Libraries are designated by an asterisk (*) and Co-central libraries by a double asterisk (**) on all tables.

If for any reason the figures on the 1988 report differ from those on the 1987 report, please footnote and explain the difference. Figures may differ because a new inventory has been taken, because a mistake was made in last year's report, etc.

MICROFORM. Microfilm has been discontinued as a separate category in the Annual Report. Microform (microfilm, microcard, microfiche) is now included within the count of the various types of materials. For example, a microcopy of a volume of adult nonfiction is counted as a title and volume of Adult Nonfiction under Book Stock.

BOOK STOCK - A library's collection of books (including paperbound books) and other materials which is prepared and recorded in the same manner as books. These books and materials must be cataloged and available for use. Foreign language books and books on rental shelves should be included in Adult (or Juvenile) Fiction or Nonfiction. Young Adult books should be included with the Adult collection. Do not include bound periodicals in Book Stock. See also definitions of MICROFORM, SERIALS COLLECTION and GOVERNMENT DOCUMENTS.

TITLES - For this report, a title is a book holding for which a separate shelflist card has been made. Thus, six copies of the same edition of a book count as one title; two editions of the same title count as two titles; a set of six books which have been cataloged as separates count as six titles; a set of books (i.e., an encyclopedia) cataloged as a set counts as one title; and two sets of the same edition cataloged as sets (i.e., two sets of Americana, 1972) count as one title. Enter the number of different titles held, added by purchases and gifts, and withdrawn.

A library which cannot easily count the number of shelflist cards (or physical items) in each category, may wish to establish a title count base in the following manner.

1. Count the number of titles in 1 inch of shelflist.
2. Repeat step 1 at random intervals throughout the shelflist.
3. Average the number of titles per inch.
4. Multiply the average titles per inch by the number of inches of cards in the shelflist.

After the base count is established make an actual count of titles added and withdrawn in subsequent years.

PAGE A-2 (cont'd)

VOLUMES - Enter the number of volumes held, added by purchase and gifts, and withdrawn, including duplicate copies of titles and the number of volumes in sets of books.

Serials include periodicals, newspapers, annuals (reports, yearbooks, etc.), memoirs, proceedings, and transactions of societies; they may include monographic and publishers' series. See also definitions of MICROFORM and GOVERNMENT DOCUMENTS.

BIBLIOGRAPHIC VOLUMES - A bibliographic volume is the unit established by the publisher as a volume. Enter the number of bibliographic volumes held, added by purchase and gifts, and withdrawn, including duplicate copies of volumes, regardless of whether the material is bound, unbound, or on microform. See the Faxon serials catalog which lists bibliographic volumes for periodicals.

CURRENT SUBSCRIPTION TITLES - Enter the number of different subscriptions held as of December 31, 1988. Two subscriptions to the same serial count as one title.

OTHER SERIALS - Enter here the current subscription titles and bibliographic volumes for serials other than periodicals and newspapers (see definition of SERIALS COLLECTION above) held in a serials section of the library and not counted as Book Stock. Other Serials bought occasionally rather than on standing order and cataloged as Book Stock may be counted as Book Stock.

Periodicals which bear a government imprint but are treated as part of the periodicals collection are counted as Periodicals. Documents held in vertical files with other ephemera are counted as Pamphlets.

CIRCULATION - Circulation for home use should be accurately recorded. Count one for each loan of book, serial, or nonbook item.

Libraries using transaction cards may make adjustments as needed. An item renewed under library rules should be counted as an additional circulation. Items loaned to schools or other institutions for circulation by the school or institution are counted as one circulation per item (the initial loan to the school or institution). Items sent from one agency of a library to another, i.e., from main library to a branch, are not counted as circulation.

PAPERBOUND BOOKS - Libraries circulating paperbound books which are not cataloged should enter the total at the bottom of page 3 of the report.

MICROFORM - The Federal Government and the American Library Association are now interested in knowing the number of titles of books and periodicals which a library holds in microform. They also want to know the number of physical items of microform held in newspapers, other serials, and other itemized nonbook materials (i.e., microform holdings other than books and periodicals.

Questions on location in the library are not reference questions. Request for "a good book of criticism of American art," "height of Empire State Building," or "how to set up a system of accounts for a small business" are to be counted as reference questions.

INSTRUCTIONS FOR THE ANNUAL REPORT
OF
PUBLIC LIBRARY SYSTEMS - 1988

GENERAL

This annual report is to be returned to Library Development by February 1, 1989.

The system report covers the activities of the system only. In the printed statistical report for 1988 the individual annual reports of the member libraries of federated or cooperative systems will be consolidated by system.

Consolidated systems will find some parts of the report not applicable. Please complete as much as possible.

PAGES A-1 and A-2

STREET AND MAILING ADDRESS - Be sure to include Zip Code.
Review data on address label for accuracy and make necessary changes.
POPULATION SERVED BY SYSTEM - Use 1980 census figures.
COUNTY (IES) SERVED BY SYSTEM - Report name(s) of county(ies) served.
NUMBER OF MEMBER LIBRARIES - Number of chartered units which are members of cooperative or federated library systems as of December 31, 1988.
NUMBER OF OTHER PUBLIC SERVICE OUTLETS: REGISTERED AND UNREGISTERED BRANCHES, DEPOSIT STATIONS, READING CENTERS, BOOKMOBILES, ETC. - Report numbers in spaces provided. Attach bookmobile schedule and list of locations of other outlets.
CERTIFICATION - Please be sure that original signature of the Director appears on all copies submitted to Library Development.

SYSTEM HOLDINGS AND CIRCULATION

NOTE: LIBRARY HOLDINGS - From the 1987 Annual Report, transfer Holdings, December 31, 1987 of all types of materials, to the 1988 Annual Report under Holdings, December 31, 1987. If for any reason the figures on the 1988 report differ from those on the 1987 report, please footnote and explain the difference. Figures may differ because a new inventory has been taken, because a mistake was made in last year's report, etc.

MICROFORM - For use in the printed PUBLIC AND ASSOCIATION LIBRARIES STATISTICS microform (microfilm, microcard, microfiche) is included within the count of the various types of materials. For example, a microcopy of a volume of Adult Nonfiction is counted as a Title and a volume of Adult Nonfiction under Book Stock. There is a separate section on microform, see page A-2.

HOLDINGS - Library materials to which the system retains title and which are not reported by a member library. This should include all materials given to the system under the Central Book Aid (CBA) program. This may also include materials secured through Federal programs such as LSCA and ESEA.

BOOK STOCK - The system's collection of books and other materials which are prepared and recorded in the same manner as books. These books and materials must be cataloged and available for use. Foreign language books should be included in Adult (or Juvenile) Fiction or Nonfiction. Young Adult books should be included with the Adult collection. Do not include bound periodicals in Book Stock. See also definitions of MICROFORM, SERIALS COLLECTIONS, AND GOVERNMENT DOCUMENTS.

TITLES - For this report, a title is a book holding for which a separate shelflist card has been made. Thus, six copies of the same edition of a book count as one title; two editions of the same title count as two titles; a set of six books which has been cataloged as separates counts as one title; and two sets of the same edition cataloged as sets (i.e., two sets of AMERICANA, 1972) count as one title. Enter the number of different titles held, added by purchases and gifts, and withdrawn.

A system which cannot easily count the number of shelflist cards (or physical items) in each category, may wish to establish a title count base in the following manner:

1. Count the number of titles in 1 inch of shelflist cards.
2. Repeat step 1 at random intervals throughout the shelflist.
3. Average the number of titles per inch.
4. Multiply the average titles per inch by the number of inches of cards in the shelflist.

After the base count is established make an actual count of titles added and withdrawn in subsequent years.

VOLUMES - Enter the number of volumes held, added by purchase and gifts, and withdrawn, including duplicate copies of titles and the number of volumes in sets of books.

SERIALS COLLECTION - A serial is a publication issued in successive parts, usually at regular intervals, and as a rule, intended to be continued indefinitely. Serials include periodicals, newspapers, annuals (reports, yearbooks, etc.), memoirs, proceedings and transactions of societies; they may include monographic and publishers' series. See also definitions of MICROFORM and GOVERNMENT DOCUMENTS.

CURRENT SUBSCRIPTION TITLES - Enter the number of different subscriptions held, added by purchase and gifts, and withdrawn. Two subscriptions to the same serial count as one title.

BIBLIOGRAPHIC VOLUMES - A bibliographic volume is the unit established by the publisher as a volume. Enter the number of bibliographic volumes held, added by purchase and gifts, and withdrawn, including duplicate copies of volumes, regardless of whether the material is bound, unbound, or on microfilm or microcards.

OTHER SERIALS - Enter here the current subscription titles and bibliographic volumes for serials other than periodicals and newspapers (see definition of SERIALS COLLECTION) held in a serials section of the library and not counted as Book Stock. Other serials bought occasionally rather than on standing order and cataloged as Book Stock may be counted as Book Stock.

PAPERBOUND BOOKS - Libraries circulating paperbound books which are not cataloged should enter the total at the bottom of page A-2 of the report.

MICROFORM - The Federal Government and the American Library Association are now interested in knowing the number of titles of books and periodicals which a library holds in microform. They also want to know the number of physical items of microform held in newspapers, other serials, and other itemized nonbook materials (i.e., microform holdings other than books and periodicals).

NONBOOK MATERIALS - Those library materials which do not meet the definition of a book or a serial, such as audiovisual materials, vertical file materials, and any other material the form of which requires special handling.

AUDIOVISUAL MATERIALS - Nonbook library materials, such as films, filmstrips, slides, recordings (tapes or discs), video cassettes and video discs which require the use of special equipment in order to be seen or heard.

PHYSICAL ITEMS - Number of reels of film, filmstrips, slides, recordings (discs or tapes), video cassettes, or video discs held in collection.

TITLES - Number of TITLES of films, filmstrips, slides, recordings (discs or tapes), video cassettes, or video discs held in collection.

PRINTS - Number of COPIES of films, filmstrips, slides, recordings (discs or tapes), video cassettes, or video discs held in collection.

MATERIALS FOR THE BLIND - Includes talking books, Braille material, and other Materials for the Blind(to be specified). List only materials actually owned by library. Do not report material on loan or deposit. Report Large Type books in Book Stock.

PHYSICAL ITEMS - Number of discs or tapes, Braille volumes, and other materials held in collection.

TITLES - Number of TITLES of discs or tapes, Braille volumes, and other materials held in collection.

PRINTS - Number of COPIES of discs or tapes, Braille volumes, and other materials held in collection.

EXAMPLES: A set of 25 slides called ART WORKS IN THE NATIONAL MUSEUM would be counted as 25 Physical items and 1 Title.

A recording of CARMEN on three discs would be counted as 3 Physical items and 1 Title.

OTHER ITEMIZED NONBOOK MATERIALS - Includes pamphlets, documents, catalogs, manuscripts, sheet music, maps, pictures and photographs, framed pictures, microcomputer software, and other (to be specified).

GOVERNMENT DOCUMENTS - Government documents held in a separate documents section of the library are counted as Documents. Documents which are fully cataloged and intershelved with books are counted as Book Stock. Periodicals which bear a government imprint but are treated as part of the periodicals collection are counted as Periodicals. Documents held in vertical files with other ephemera are counted as Pamphlets.

CIRCULATION - Direct circulation to system headquarters staff and to patrons handled by the system. Do not include here materials sent to member libraries. See page A-3. Two separate reportings of circulation statistics are requested: 1) by books, serials, and nonbook materials; and 2) by total bookmobile circulation and total circulation in other outlets. Systems using transaction cards may make adjustments as needed.

PAGE A-3

INTERLIBRARY LOAN MATERIALS BORROWED FOR SYSTEM PATRONS should be used to record materials borrowed by the system as the result of a specific author, title, or subject request for use by the system headquarters staff or for patrons handled by the system. Do not include here materials sent to member libraries.

INTERLIBRARY LOAN MATERIALS SUPPLIED should be used to record intrasystem materials sent to member libraries as the result of a specific author, title, or subject request made by an individual patron. Do not include rotating collections as a part of these figures.

UNION CATALOG - See Regulations of the Commissioner of Education, 90.3.f.Count all titles purchased with local or system funds even though they may be duplicates of titles purchased with CBA funds.

CENTRAL LIBRARY - A central library is the library in the system which has been designated in the system plan as the central library. Record the number of Adult Nonfiction volumes (not titles) in the collection, purchased with other than State funds.

SYSTEM CBA - Cumulative number of volumes added since the beginning of the Central Book Aid program.

REFERENCE QUESTION is defined as "a request for information or aid which requires the use of one or more sources to determine the answers or utilizes the professional judgment of the librarian." Requests for "a good book of criticism of American art," "height of Empire State Building," or "how to set up a system of accounts for a small business" are to be counted as reference questions. Questions should be counted at the location where they are answered.

PAGE A-4

PREFACE

1989 PUBLIC AND ASSOCIATION LIBRARIES STATISTICS is compiled from information supplied by public libraries and systems throughout New York State. Forms were sent by the New York State Library's Division of Library Development to the designated systems and libraries in December 1989 with the request for return by February 1, 1990. Ninety percent of the completed forms were returned by April 13, 1990 and the last report was received on August 8, 1990. Data were verified at system headquarters and at the Division of Library Development. The data were compiled on the Division of Library Development computer and the printouts thereof constitute statistical tables II, III, IV, V, and VII.

Two new tables, Table VI - *New York State Public Libraries and Public Library Standards - Comparison Chart* and Table VII - *System & Nonsystem Statistics Related to Proposed Library Standards* have been added to this year's statistics. The data in Table VI represent overall progress in meeting 1988 proposed standards for public libraries. Table VII reflects data supplied by each of 739 public libraries in relation to the proposed standards. It is important to note that for the purposes of this compilation a "nonresponse" was treated as a "no" response. More information on each of the proposed standards can be found in New York State Public Library Service Minimum Standards, *1988*.

Statistics for the 731 libraries in systems are grouped by system in Table III and those for the three libraries which are not members of systems appear in Table IV. To help the user locate information on specific libraries, indexes of counties and libraries appear in appendices. Summaries of the 1989 statistics appear in Table II and are compared with those of earlier years in Table I.

Education Law and Commissioner's Regulations require the submission of annual reports by all libraries and systems in order that they retain their registration status and be eligible for public funding. It is our hope that the publication of these statistics will be helpful to library administrators and staff, to members of governing boards, and to others who make decisions on library resources and services.

We thank all persons who supplied information and all who assisted in verifying, checking and compiling it. Accuracy is critical to the usefulness of this publication and notes of omission and errors are invited.

REFERENCE NOTES

TABLES I, II, IIIB, IIIC, IVB

All 1957, 1987, and 1988 figures were taken from TABLE I, Public and Library Association Statistics, for designated years.

1957 is used as the base year since this is the year preceding the 1958 State Aid Law, which provided for the establishment of the cooperative systems comparison.

"Population Served by Systems and Nonsystem Libraries." Taken from the 1980 Census of Population and Housing, Final Population and Housing Unit Counts, issued March 1981, revised March 1983, U.S. Department of Commerce, Bureau of Census; school district population as prepared 5/14/84 by the New York State Data Center, NYS Department of Commerce, using the CENSUS OF POPULATION AND HOUSING.

State Aid received under Education Law, excluding administrative costs of the New York State Library

Adjusted Disbursements exclude Cash Grants to member libraries from the system Total Disbursements and disbursements for Contracts With Other Libraries from system and member library Total Operating Disbursements.

GENERAL

Brooklyn, New York, Queens Borough include both system headquarters and branch libraries or central library on all tables.

Ulster County is served jointly by Ramapo-Catskill and Mid-Hudson Library Systems.

Central Libraries are designated by an asterisk (*) and Co-Central libraries by a double asterisk (**) on all tables.

For the purpose of this survey, a computer is defined as any central processing unit, with either online or offline operations, and its related peripheral equipment. Contracted computer services are those which the library purchases from library networks, cooperative library organizations, commercial organizations, etc. A separate survey form should be completed for each library facility (i.e., each branch should complete a form).

I. Does your library use computers in providing library services? ☐ YES ☐ NO

II. Does your library use computers indirectly by contracting for computer services? ☐ YES ☐ NO

IF THE ANSWERS TO QUESTIONS I AND II ARE NO, YOU ARE NOT REQUIRED TO COMPLETE THE REMAINDER OF THIS SURVEY

III. Does your library use an online bibliographic data base? ☐ YES ☐ NO

Please enter an "X" to indicate which one(s):

Please read before filling out the

ANNUAL LIBRARY REPORT FORM

THE ANNUAL REPORT IS DUE IN ALBANY

FEBRUARY 1, 1990

GLOSSARY OF SELECTED TERMS

AUDIOVISUAL MATERIALS Nonbook library materials, such as recordings, transparencies, tapes, slides, films, and filmstrips, which require the use of special equipment in order to be seen or heard.

BIBLIOGRAPHIC VOLUME A unit of publication distinguished from other units by having its own title page, half title, cover title or portfolio title. In connection with periodicals, the publisher's volume.

BOOK A unit of publication, either bibliographically independent or a volume in a series published under the same title, consisting of leaves, sheets, or signatures sewn or otherwise bound together, covered or uncovered. Bound volumes of periodicals and newspapers are not considered books.

BRAILLE MATERIAL The library material for the visually handicapped using a system of raised dots representing letters and numerals.

CATALOGED MATERIAL Any library material which has been identified in a catalog which records, describes, and indexes the resources of a library; as distinct from library materials which are merely physically arranged for use and are not indexed and described individually by item.

CIRCULATION The activity of a library in lending its resources to borrowers. For statistical purposes, photocopies provided in lieu of circulation should also be included. Count one for each loan of a book, serial, or nonbook item.

GOVERNMENT DOCUMENT Any publication in book, serial, or nonbook form bearing a government imprint, e.g., the publications of Federal, state, local, and foreign governments and of world organizations, such as United Nations, European Common Market, etc. Government documents held in a separate documents section of the library are counted as Documents. Documents which are fully cataloged and intershelved with books are counted as Book Stock. Periodicals which bear a government imprint but are treated as part of the periodicals collection are counted as Periodicals. Documents held in vertical files with other ephemera are counted as Pamphlets.

MICROCARD An opaque card containing images photographically reduced to a size too small to be read without magnification.

MICROCOMPUTER SOFTWARE A sequence of machine-readable instructions by which a computer executes a desired task.

MICROFICHE A microfilm sheet containing multiple images in a grid pattern.

MICROFILM A strip of film containing photographic images usually too small to be read without magnification. Microfilm has been discontinued as a separate category in the annual report.

MICROFORM Any library material which has been photographically reduced in size for storage and protection purposes, and which must be read with the help of enlarging instruments. Microform is now included within the count of the various types of materials such as books or periodicals. For example, a microcopy of a volume of adult nonfiction is counted as a title and volume of Adult Nonfiction under Book Stock.

NEWSPAPER A serial publication issued at stated and frequent intervals (usually daily, weekly, or semiweekly), which reports events and discusses topics of current interest, and is usually a "primary source" of information to its readers.

NONBOOK MATERIALS Those library materials which do not meet the definition of a book or periodical, such as, audiovisual materials; vertical file materials and similar items which are not individually cataloged; and any other material the form of which requires special handling.

PERIODICAL A serial publication which constitutes one issue in a continuous series under the same title, usually published at regular intervals over an indefinite period, individual issues in the series being numbered consecutively or each issue being dated.

PUBLIC SERVICE OUTLET A location where library materials and services are made available to the library's clientele, e.g., a Member Library, a Registered or Unregistered Branch, a Deposit Station, a Reading Center, or a Mobile Unit.

REFERENCE TRANSACTION A reference transaction is an information contact which involves the knowledge, use, recommendations, interpretation, or instruction in the use of one or more information sources by a member of the library staff.

SERIAL A publication issued in successive parts, usually at regular intervals, and as a rule, intended to be continued indefinitely. Serials include periodicals, newspapers, annuals (reports, yearbooks, etc.). memoirs, proceedings, and transactions of societies; they may include monographic and publishers' series.

TALKING BOOK A spoken text recorded on either an audiotape or an audiodisc intended particularly for use by the visually handicapped.

TITLE A term used to designate a printed publication which forms a separate whole, whether issued in one or several volumes. A title is a holding for which a separate shelflist card has been made.

VIDEOCASSETTE A permanently encased videotape that winds and rewinds from reel to reel.

VIDEODISC A disc, usually plastic, on which are recorded video or audio signals, or both. Some videodiscs are digitally recorded and used in computer recording and playback systems. Others are nondigital and are used for listening and viewing.

VOLUME For statistical purposes, a volume is a physical unit of any printed, typewritten, handwritten, mimeographed, or processed work contained in one binding or portfolio, hardbound or paperbound, which has been cataloged, classified, and/or made ready for use.

A library which serves a SCHOOL DISTRICT must use the school district population as prepared 5/14/84 by the New York State Data Center, NYS Department of Commerce, using the *1980 CENSUS OF POPULATION AND HOUSING.*

AREA CHARTERED TO SERVE - as indicated on the library's charter.

DIRECTOR'S CERTIFICATION # - Check "yes" or "no". If "yes", include the Director's Certification number. Numbers are available from Library Development. A library serving a population of 7,500 or more is required to have a certified librarian on staff.

TYPE OF LIBRARY - as indicated on the library's charter.

PUBLIC SERVICE OUTLETS - Report the number of Branches; the number of Deposit Stations and Reading Centers; and the number of Bookmobiles. Indicate the number of Bookmobile stops for service to the general public, to a school or other.

FEDERAL EMPLOYER IDENTIFICATION NUMBER - the nine digit number assigned to library as an employer, by the Internal Revenue Service.

PUBLIC SERVICE HOURS Report daily service hours for the Main Library under Winter hours, reflecting the schedule followed during the majority of the weeks of the year. Also, report Summer hours.

Report only totals for the branches and bookmobiles, following instructions for unduplicated and duplicated service hours described below. Information on unduplicated and duplicated service hours is being collected as part of the Federal/State Cooperative System project.

All libraries should be open on a 52 week basis. Libraries must be open at fixed times as follows (Commissioner Regulations 90.2):

POPULATION	MINIMUM WEEKLY STANDARD HOURS
1 - 499	6
500 - 2,499	12
2,500 - 4,999	18
5,000 - 24,999	30
25,000 - 99,999	45
100,000 - plus	60

These rules do not require any library to be open on legal holidays or Sundays.

Instructions for completing TOTAL HOURS, UNDUP and DUP columns:

The grand total of UNDUPLICATED public service hours is the total number of hours out of a typical week during which users can find service.

The grand total of DUPLICATED public service hours is the total aggregate number of hours during a typical week that all facilities are open for service (regardless of whether or not all facilities are open at the same time).

The grand total for the UNDUP and DUP columns for a main library without branches or bookmobiles will always be the same. In all cases, the figures in the UNDUP and DUP columns for the main library should match exactly.

For Total Hours Column labeled UNDUP: Write the total number of hours that the main library is open each day in this column. If the library has branches or bookmobiles, consider the main library, branches and bookmobiles using the following method:

> If a main library is open from 9:00 a.m. to 5:00 p.m. Monday through Friday, it should report 8 hours a day or a total of 40 hours a week. If several of its branches are also open during those same hours, the total figure entered for branches is zero (0). Should Branch A also be open one evening from 5:00 to 7:00, the total figure entered for branches in the Undup. column is two (2). If Branch B is open the same hours on the same evening the total entered for branches remains two (2), but if it is open 2 more hours on another evening that are different from Branch A and different from the main library, the total branch hours becomes 4 hours. The grand total of hours out of a typical week during which users can find service at this library and its branches becomes 44. Include bookmobiles if appropriate.

For Total Hours Column labeled DUP: Write the total number of hours that the main library is open each day in this column (should exactly match UNDUP column). If the library has branches or bookmobiles, consider the main library, branches and bookmobiles using the following method:

> If a main library is open from 9:00 a.m. to 5:00 p.m. Monday through Friday, it should report 8 hours a day or a total of 40 hours a week. If the library has 3 branches, two open the same number of hours as the main library and one open 44 hours, enter 40 + 40 + 44 or a total of 124 for branch hours in the Dup. column. The grand total of hours during a typical week that all of the library's facilities are open for service (regardless of whether or not all facilities are open at the same time) is 40 plus 124 or 164. Include bookmobiles if appropriate.

EXAMPLES:

Library #1 - open 40 hours, has no branches or bookmobiles
Library #2 - open 40 hours, has 4 branches, 3 of which are open the same 40 hours, and 1 open the same 40 hours, plus 4 additional hours
Library #3 - open 60 hours, has 3 branches, each one open the same 60 hours and 1 bookmobile operating 40 of the same 60 hours, plus 6 additional hours.

The public service hours chart for these examples would be completed as follows:

	Library # 1		Library #2		Library #3	
MAIN LIBRARY	Hours		Hours		Hours	
	Undup.	Dup.	Undup.	Dup.	Undup.	Dup.

INTERLIBRARY AND AGENCY COOPERATION

NOTE: MATERIALS BORROWED ON INTERLIBRARY LOAN

BY SPECIFIC REQUEST - materials borrowed to fill a specific title, author, or subject request.

BULK LOANS TO AUGMENT COLLECTION - materials borrowed from system to supplement library's holdings. These materials are not borrowed to fill a specific request. Include materials in rotating collections which automatically come to the library for a set loan period, such as 25 mystery stories, 30 sports books, etc.

LOANED ON INTERLIBRARY LOAN - materials loaned by reporting library to the system or other libraries.

PHOTOCOPY mailed or transmitted by wire to fill an interlibrary loan request is included within the count of the various types of material borrowed or loaned. For example, photocopy of an article found in a periodical counts as a periodical; photocopy of pages from a book counts as a book.

The following information must be reported by libraries serving population of 5,000 or more:

NUMBER OF INTERLIBRARY LOAN REQUESTS FORWARDED

TO SYSTEM - those directed to system headquarters.

TO OTHER LIBRARIES OR AGENCIES - those directed to agencies other than system headquarters.

TOTAL - total number of interlibrary loan requests forwarded.

NUMBER OF INTERLIBRARY LOAN REQUESTS FILLED - How many interlibrary loan requests, shown above, were filled from any source?
NUMBER OF BOOKS RENTED - count only those for which the library pays rental, such as the McNaughton Plan.
NUMBER OF AUDIOVISUAL MATERIALS RENTED - count only those for which the library pays rental.

LIBRARY HOLDINGS AND CIRCULATION

From the 1988 Annual Report, transfer Holdings, December 31, 1988, of all types of materials to the 1989 Annual Report, under "Holdings, December 31, 1988". If for any reason the figures on the 1989 report differ from those on the 1988 report, please footnote and explain the difference. Figures may differ because a new inventory has been taken, because a mistake was made in last year's report, etc. Report Additions and Withdrawals made between January 1, 1989 and December 31, 1989, and Holdings 12-31-89 under appropriate headings.

CIRCULATION - Report Circulation between January 1, 1989 and December 31, 1989. Circulation for home use should be accurately recorded. Count one for each loan of book, serial, or nonbook item on the appropriate line under book stock, serials collection, nonbook materials, etc. An item renewed under library rules should be counted as an additional circulation. Items loaned to schools or other institutions for circulation by the school or institution are counted as one circulation per item (the initial loan to the school or institution). Items sent from one agency of a library to another, i.e., from main library to a branch, are not counted as circulation.

BOOK STOCK - A library's collection of books (including paperbound books and microform) and other materials which is prepared and recorded in the same manner as books. These books and materials must be cataloged and available for use. Foreign language books and books on rental shelves should be included in Adult (or Juvenile) Fiction or Nonfiction. Young Adult books should be included with the Adult collection.

Microfilm has been discontinued as a separate category in the Annual Report. Microform (microfilm, microcard, microfiche) is now included within the count of the various types of materials. For example, a microcopy of a volume of adult nonfiction is counted as a title and volume of Adult Nonfiction under Book Stock.

Documents which are fully cataloged and intershelved with books are counted as Book Stock.

Do not include bound periodicals in Book Stock.

TITLES - For this report, a title is a book holding for which a separate shelflist card has been made. Thus, six copies of the same edition of a book count as one title; two editions of the same title count as two titles; a set of six books which have been cataloged as separates count as six titles; a set of books (i.e., an encyclopedia) cataloged as a set counts as one title; and two sets of the same edition cataloged as sets (i.e., two sets of Americana, 1972) count as one title. Enter the number of different titles held, added by purchases and gifts, and withdrawn.

A library which cannot easily count the number of shelflist cards (or physical items) in each category, may wish to establish a title count base in the following manner.

1. Count the number of titles in 1 inch of shelflist.
2. Repeat step 1 at random intervals throughout the shelflist.
3. Average the number of titles per inch.
4. Multiply the average titles per inch by the number of inches of cards in the shelflist.

After the base count is established make an actual count of titles added and withdrawn in subsequent years.

VOLUMES - Enter the number of volumes held, added by purchase and gifts, and withdrawn, including duplicate copies of titles and the number of volumes in sets of books.

SERIALS COLLECTION - A serial is a publication including microform, issued in successive parts, usually at regular intervals, and as a rule, intended to be continued indefinitely. Serials include periodicals, newspapers, annuals (reports, yearbooks, etc.), memoirs, proceedings, and transactions of societies; they may include monographic and publishers' series. Periodicals which bear a government imprint but are treated as part of the periodicals collection are counted as Periodicals. See also definitions of newspaper, periodical, serial, microform and government documents.

> BIBLIOGRAPHIC VOLUMES - A bibliographic volume is the unit established by the publisher as a volume. Enter the number of bibliographic volumes held, added by purchase and gifts, and withdrawn, including duplicate copies of volumes, regardless of whether the material is bound, unbound, or on microform. See the Faxon serials catalog which lists bibliographic volumes for periodicals.
>
> CURRENT SUBSCRIPTION TITLES - Enter the number of different subscriptions held as of December 31, 1989. Two subscriptions to the same serial count as one title.

OTHER SERIALS - Enter here the current subscription titles and bibliographic volumes for serials other than periodicals and newspapers (see definition of SERIALS COLLECTION above) held in a serials section of the library and not counted as Book Stock. Other Serials bought occasionally rather than on standing order and cataloged as Book Stock may be counted as Book Stock.

PAGE A-3

NONBOOK MATERIALS Those library materials which do not meet the definition of a book or a serial, such as audiovisual materials, vertical file materials, and any other material the form of which requires special handling.

AUDIOVISUAL MATERIALS - Nonbook library materials, such as films, filmstrips, slides, recordings (audiodiscs or audiotapes), videocassettes and videodiscs which require the use of special equipment in order to be seen or heard.

PHYSICAL ITEMS - Number of reels of film, filmstrips, slides, recordings (audiodiscs or audiotapes), videocassettes, or videodiscs held in collection.

TITLES - Number of TITLES of films, filmstrips, slides, recordings (audiodiscs or audiotapes), videocassettes, or videodiscs held in collection.

EXAMPLES: A set of 25 slides called ART WORKS IN THE NATIONAL MUSEUM would be counted as 25 Physical items and 1 Title.

A recording of CARMEN on three discs would be counted as 3 Physical items and 1 Title.

MATERIALS FOR THE PRINT HANDICAPPED - Includes talking books, Braille material, and other Materials for the Print Handicapped (to be specified). List only materials actually owned by library. Do not report material on loan or deposit. Report Large Type books in Book Stock. See definition of talking book and Braille material.

PHYSICAL ITEMS - Number of audiodiscs or audiotapes, Braille volumes, and other materials held in collection.

TITLES - Number of TITLES of audiodiscs or audiotapes, Braille volumes, and other materials held in collection.

OTHER NONBOOK MATERIALS - Includes pamphlets, documents, catalogs, manuscripts, sheet music, maps, pictures and photographs, framed pictures, microcomputer software, and other (to be specified).

DOCUMENTS - Government documents held in a separate documents section of the library are counted as Documents. Documents which are fully cataloged and intershelved with books are counted as Book Stock. Periodicals which bear a government imprint but are treated as part of the periodicals collection are counted as Periodicals. Documents held in vertical files with other ephemera are counted as Pamphlets.

PAPERBOUND BOOKS - Libraries circulating paperbound books which are not cataloged should enter the total number of uncataloged paperbound books they own which can be borrowed by the public.

MICROFORMS - The Federal Government and the American Library Association are now interested in knowing the number of titles of books and periodicals which a library holds in microform. They also want to know the number of physical items of microform held in newspapers, other serials, and other itemized nonbook materials (i.e., microform holdings other than books and periodicals).

PAGE A-4

OFFICERS AND TRUSTEES - Fill in information requested for all trustees and officers for calendar year 1990.

TRUSTEES' MEETINGS - Specify the total number of trustees' meetings held during the 1989 calendar year. Education Law, section 260, requires that regular meetings of the board shall be held at least quarterly.

RECORD OF TRUSTEE ACTIONS - Indicate the latest year of formal trustee action on approval for each item. If no action has ever been taken, record a zero (0).

PAGE A-5

LIBRARY SERVICES

REFERENCE QUESTIONS ANSWERED - Report the total number of reference transactions successfully completed by library staff between January 1, 1989 and December 31, 1989. See definition of reference transaction below.

REFERENCE TRANSACTION - A reference transaction is an information contact which involves the knowledge, use, recommendations, interpretation, or instruction in the use of one or more information sources by a member of the library staff. The term includes information and referral service. Information sources include printed and non-printed materials, machine-readable data bases (including computer-assisted instruction), catalogs and other holdings records, and, through communication or referral, other libraries and institutions and persons both inside and outside the library. When a staff member utilizes information gained from previous use of information sources to answer a question, report as a reference transaction even if the source is not consulted again during this transaction.

Note: It is essential that libraries do not include directional transactions in the report of reference transactions. A directional transaction is an information contact which facilitates the use of the library in which the contact occurs and which does NOT involve the knowledge, use, recommendation, interpretation, or instruction in the use of any information sources other than those which describe that library, such as schedules, floor plans, handbooks, and policy statements. Examples of directional transactions include giving instruction for locating, within the library, staff, library users, or physical features, etc., and giving assistance of a non-bibliographic nature with machines.

SERVICES FOR A TYPICAL WEEK - A typical week is a week in which the library is open its regular hours, containing no holidays. It is seven consecutive calendar days, from Sunday through Saturday, or whatever days the library is open during that period. It is recommended that libraries use the methods described in Output Measures for Public Libraries, 2nd edition (ALA, 1987) for counting attendance, in-library use and reference transactions. Please report all figures for the same week if possible. Brief instructions are listed below. If you have an annual count, please divide the total by 52 weeks to report for a typical week.

ATTENDANCE IN LIBRARY FOR A TYPICAL WEEK - Report the total number of persons entering the library for a typical week including persons attending activities, meetings, and those persons requiring no staff services.

IN-LIBRARY USE OF LIBRARY MATERIALS FOR A TYPICAL WEEK - Report the total number of materials utilized in the library, but not checked out. Include reference books, periodicals, book stock, and all other library materials that are used WITHIN the library.

REFERENCE TRANSACTIONS FOR A TYPICAL WEEK - Report the total reference transactions for a typical week.

The remainder of the questions on page A-5 may be answered by checking "yes" or "no" as appropriate. Please answer all questions.

Library Personnel - 1989 - Support Series

Personnel listed in this series are the people who support, in various capacities, the librarians and library technicians on the staff. According to the LIBGIS definition, a librarian is "a staff member doing work that requires professional training and skill in the theoretical and/or scientific aspect of library work, as distinct from its mechanical or clerical aspect". Other staff members, therefore, should be listed in the support series. Columns 1 through 5 should be answered in the same fashion as the instructions for the Librarian Series. For titles not listed, please specify under - "other". Use additional sheets as necessary.

Clerical Staff Series

Titles listed are those found in NYLA Typical Class Specifications for Clerical & Supportive Staff Positions in Public & School Libraries Under Civil Service... (Revised November 1975). For civil service clerical titles not in the library series, such as secretary, stenographer, driver, film inspector, AV technician, etc. please specify under "other".

Other Support Staff

List other staff positions which do not fall under librarian, library technician, clerical series or building maintenance and operation. Some examples are: systems analyst, programmer, business manager, public relations person, accountant, secretary, driver, AV technician, etc.

Bindery Staff

Librarians which maintain a bindery should list the bindery staff as a subcategory of "Other Support Staff".

Building Maintenance and Operation Staff

List all custodial staff, building guards, etc.

Volunteers

List total number of volunteers working on a scheduled basis.

PAGE A-8

ADDITIONAL PERSONNEL DATA

HOURS AND SALARIES - For questions 1 and 3, report the number of hours for a typical work week in 1990. A typical week is a week in which the library is open its regular hours, containing no holidays. Include all hours a full time staff person works, even if the library is not open to the public.

Example: Library A is open to the public 30 hours a week. In addition to working those 30 hours, the Library Director also works 8 hours a week when the library is closed to the public. A full time staff member in Library A works 38 hours a week.

For question 2, if the library does not employ a certified librarian, insert a zero (0).

For question 4, if there is no set "annual" salary figure for the Library Director, then multiply the 1990 hourly salary by the number of hours worked in a typical week by 52 weeks.

Example: The director of Library B makes $12.00 an hour and works 25 hours a week. The 1990 current annual salary is ($12.00 x 25 x 52) or $15,600.

PAGE A-1

STREET AND MAILING ADDRESS - Be sure to include 9 digit Zip Code. Review data on address label for accuracy and make necessary changes.

TELEPHONE NUMBER - the phone number of the library system.

TELEFAX NUMBER - the phone number for telefacsimile messages.

FEDERAL EMPLOYER IDENTIFICATION NUMBER - the nine digit number assigned to library as an employer, by the Internal Revenue Service.

POPULATION CHARTERED TO SERVE - Use Final Population Count Issued March 1981 (revised March 1983) by U.S. Dept. Comm., Bureau of Census.

AREA CHARTERED TO SERVE - Use Final Square Mile Count Issued October 1981 by U.S. Dept. Comm., Bureau of Census.

COUNTY(IES) SERVED BY SYSTEM - Report name(s) of county(ies) served.

DIRECTOR CERTIFICATION - Check "yes" or "no". If "yes", include the Director's Certification number. Numbers are available from Library Development.

PUBLIC SERVICE OUTLETS - Report the number of chartered units which are members of Cooperative or Federated Library Systems as of December 31, 1989. Report all outlets,including the number of Branches, the number of Deposit Stations and Reading Centers, and the number of Bookmobiles. Indicate the number of Bookmobile stops for service to the general public, to a school or other. Attach bookmobile schedule and list of locations of all other outlets.

PUBLIC SERVICE HOURS - **Brooklyn, Buffalo-Erie, New York Branch and Research, Onondaga and Queens Public Libraries**: Report Unduplicated and Duplicated Hours. Report weekly totals for the main library, branches and bookmobiles, following instructions for unduplicated and duplicated service hours described below. Information on unduplicated and duplicated service hours is being collected as a part of the Federal/State Cooperative System project.

Instructions for completing TOTAL WEEKLY HOURS, UNDUPLICATED and DUPLICATED columns:

The grand total of UNDUPLICATED public service hours is the total number of hours out of a typical week during which users can find service.

The grand total of DUPLICATED public service hours is the total aggregate number of hours during a typical week that all facilities are open for service (regardless of whether or not all facilities are open at the same time).

The grand totals for the UNDUPLICATED and DUPLICATED columns for a main library without branches or bookmobiles will always be the same. In all cases, the figures in the UNDUPLICATED and DUPLICATED columns for the main library should match exactly.

For Total Weekly Hours Column labeled UNDUPLICATED: Write the total number of hours that the main library is open each week in this column. If the library has branches or bookmobiles, consider the main library, branches and bookmobiles using the following method:

> If a main library is open from 9:00 a.m. to 5:00 p.m. Monday through Friday, or 8 hours a day, it should report a total of 40 hours a week. If several of its branches are also open during those same hours, the total figure entered for branches is zero (0). Should branch A also be open one evening from 5:00 to 7:00, the total figure entered for branches in the Unduplicated column is two (2). If Branch B is open the same hours on the same evening the total entered for branches remains two (2), but if it is open 2 more hours on another evening that are different from Branch A and different from the main library, the total branch hours becomes 4 hours. The grand total of hours out of a typical week during which users can find service at this library and its branches becomes 44. Include bookmobiles if appropriate.

For Total Weekly Hours Column labeled DUPLICATED: Write the total number of hours that the main library is open each week in this column (should exactly match UNDUPLICATED column). If the library has branches or bookmobiles, consider the main library, branches and bookmobiles using the following method:

> If a main library is open from 9:00 a.m. to 5:00 p.m. Monday through Friday, or 8 hours a day, it should report a total of 40 hours a week. If the library has 3 branches, two open the same number of hours as the main library and one open 44 hours, enter 40 + 40 + 44 or a total of 124 for branch hours in the DUPLICATED column. The grand total of hours during a typical week that all of the library's facilities are open for service (regardless of whether or not all facilities are open at the same time) is 40 plus 124 or 164. Include bookmobiles if appropriate.

EXAMPLES:

Library #1 - open 40 hours, has 4 branches, 3 of which are open the same 40 hours, and 1 open the same 40 hours, plus 4 additional hours.

Library #2 - open 60 hours, has 3 branches, each one open the same 60 hours and 1 bookmobile operating 40 of the same 60 hours, plus 6 additional hours.

The public service hours chart for these examples would be completed as follows:

	Library #1 Hours		Library #2 Hours	
PUBLIC SERVICE HOURS	UNDUPLICATED	DUPLICATED	UNDUPLICATED	DUPLICATED
Total Main Library	40	40	60	60
Total Branches	4	164	0	180
Total Bookmobiles	0	0	6	46
GRAND TOTAL	44	204	66	286

PAGES A-2 AND A-3

SYSTEM HOLDINGS AND CIRCULATION

HOLDINGS - Library materials to which the system retains title and which are not reported by a member library. This should include all materials given to the system under the Central Book Aid (CBA) program. This may also include materials secured through Federal programs such as LSCA and ESEA.

From the 1988 Annual Report, transfer Holdings, December 31, 1988, of all types of materials, to the 1989 Annual Report, under "Holdings, December 31, 1988". If for any reason the figures on the 1989 report differ from those on the 1988 report, please footnote and explain the difference. Figures may differ because a new inventory has been taken, because a mistake was made in last year's report, etc. Report Additions and Withdrawals made between January 1, 1989 and December 31, 1989, and Holdings 12-31-89 under appropriate headings.

CIRCULATION - Report direct circulation to system headquarters staff and to patrons handled by the system. Do not include here materials sent to member libraries. Member library information is recorded on page A-4.

Two separate reportings of circulation statistics are requested on pages A-2 and A-3: 1) by books, serials, and nonbook materials; and 2) by total bookmobile circulation and total circulation in other outlets. Systems using transaction cards may make adjustments as needed.

BOOK STOCK - The system's collection of books (including paperbound books and microform) and other materials which are prepared and recorded in the same manner as books. These books and materials must be cataloged and available for use. Foreign language books and books on rental shelves should be included in Adult (or Juvenile) Fiction or Nonfiction. Young Adult books should be included with the Adult collection.

Microfilm has been discontinued as a separate category in the Annual Report. Microform (microfilm, microcard, microfiche) is now included within the count of the various types of materials. For example, a microcopy of a volume of adult nonfiction is counted as a title and volume of Adult Nonfiction under Book Stock.

Documents which are fully cataloged and intershelved with books are counted as Book Stock.

Do not include bound periodicals in Book Stock.

TITLES - For this report, a title is a book holding for which a separate shelflist card has been made. Thus, six copies of the same edition of a book count as one title; two editions of the same title count as two titles; a set of six books which has been cataloged as separates counts as one title; and two sets of the same edition cataloged as sets (i.e., two sets of AMERICANA, 1972) count as one title. Enter the number of different titles held, added by purchases and gifts, and withdrawn.

A system which cannot easily count the number of shelflist cards (or physical items) in each category, may wish to establish a title count base in the following manner:

1. Count the number of titles in 1 inch of shelflist cards.
2. Repeat step 1 at random intervals throughout the shelflist.
3. Average the number of titles per inch.
4. Multiply the average titles per inch by the number of inches of cards in the shelflist.

After the base count is established make an actual count of titles added and withdrawn in subsequent years.

SERIALS COLLECTION - A serial is a publication including microform, issued in successive parts, usually at regular intervals, and as a rule, intended to be continued indefinitely. Serials include periodicals, newspapers, annuals (reports, yearbooks, etc.), memoirs, proceedings and transactions of societies; they may include monographic and publishers' series. Periodicals which bear a government imprint but are treated as part of the periodicals collection are counted as Periodicals.

BIBLIOGRAPHIC VOLUMES - A bibliographic volume is the unit established by the publisher as a volume. Enter the number of bibliographic volumes held, added by purchase and gifts, and withdrawn, including duplicate copies of volumes, regardless of whether the material is bound, unbound, or on microfilm or microcards.

OTHER SERIALS - Enter here the current subscription titles and bibliographic volumes for serials other than periodicals and newspapers (see definition of SERIALS COLLECTION) held in a serials section of the library system and not counted as Book Stock. Other serials bought occasionally rather than on standing order and cataloged as Book Stock may be counted as Book Stock.

PAGE A-3

NONBOOK MATERIALS - Those system materials which do not meet the definition of a book or a serial, such as audiovisual materials, vertical file materials, and any other material the form of which requires special handling.

AUDIOVISUAL MATERIALS - Nonbook system materials, such as films, filmstrips, slides, recordings (audiodiscs or audiotapes), videocassettes and videodiscs which require the use of special equipment in order to be seen or heard.

PHYSICAL ITEMS - Number of reels of film, filmstrips, slides, recordings (audiodiscs or audiotapes), videocassettes, or videodiscs held in collection.

TITLES - Number of TITLES of films, filmstrips, slides, recordings (audiodiscs or audiotapes), videocassettes, or videodiscs held in collection.

EXAMPLES: A set of 25 slides called ART WORKS IN THE NATIONAL MUSEUM would be counted as 25 Physical Items and 1 Title.

A recording of CARMEN on three audiodiscs would be counted as 3 Physical Items and 1 Title

MATERIALS FOR THE PRINT HANDICAPPED - Includes talking books, Braille material, and other materials for the print handicapped (to be specified). List only materials actually owned by the system. Do not report material on loan or deposit from another agency. Report Large Type books in Book Stock.

OTHER NONBOOK MATERIALS - Includes pamphlets, documents, catalogs, manuscripts, sheet music, maps, pictures and photographs, framed pictures, microcomputer software, and other (to be specified).

DOCUMENTS - Government documents held in a separate documents section of the library are counted as Documents. Documents which are fully cataloged and intershelved with books are counted as Book Stock. Periodicals which bear a government imprint but are treated as part of the periodicals collection are counted as Periodicals. Documents held in vertical files with other ephemera are counted as Pamphlets.

PAPERBACK BOOKS - Systems circulating paperback books which are not cataloged should enter the total number of uncataloged paperbound books they own which can be borrowed by the public at the bottom of page A-3 of the report.

MICROFORMS - The Federal Government and the American Library Association are interested in knowing the number of titles of books and periodicals which a library holds in microform. They also want to know the number of physical items of microform held in newspapers, other serials, and other itemized nonbook materials (i.e., microform holdings other than books and periodicals). Report the number of titles and physical items at the bottom of page A-3.

PAGE A-4

INTERLIBRARY LOAN MATERIALS BORROWED FOR SYSTEM PATRONS should be used to record materials borrowed by the system, as the result of a specific author, title, or subject request, for use by the system headquarters staff or for patrons handled by the system. Do not include here materials sent to member libraries.

INTERLIBRARY LOAN MATERIALS SUPPLIED should be used to record intrasystem materials sent to member libraries as the result of a specific author, title, or subject request made by an individual patron. Do not include rotating collections as a part of these figures.

UNION CATALOG - See Regulations of the Commissioner of Education, 90.3.f. Count all titles purchased with local or system funds even though they may be duplicates of titles purchased with CBA funds.

CENTRAL LIBRARY - A central library is the library in the system which has been designated in the system plan as the central library.

LIBRARY SERVICES - Brooklyn, Buffalo-Erie, New York - Branch and Research, Onondaga and Queens Public Libraries: Reply to all questions.

REFERENCE QUESTIONS ANSWERED - Report the total number of reference transactions successfully completed by library staff between January 1, 1989 and December 31, 1989. See definition of reference transaction below.

REFERENCE TRANSACTION - A reference transaction is an information contact which involves the knowledge, use, recommendations, interpretation, or instruction in the use of one or more information sources by a member of the library staff. The term includes information and referral service. Information sources include printed and non-printed materials, machine-readable data bases (including computer-assisted instruction), catalogs and other holdings records, and, through communication or referral, other libraries and institutions and persons both inside and outside the library. When a staff member utilizes information gained from previous use of information sources to answer a question, report as a reference transaction even if the source is not consulted again during this transaction.

Note: It is essential that libraries do not include directional transactions in the report of reference transactions. A directional transaction is an information contact which facilitates the use of the library in which the contact occurs and which does NOT involve the knowledge, use, recommendation, interpretation, or instruction in the use of any information sources other than those which describe that library, such as schedules, floor plans, handbooks, and policy statements. Examples of directional transactions include giving instruction for locating, within the library, staff, library users, or physical features, etc., and giving assistance of a non-bibliographic nature with machines.

SERVICES FOR A TYPICAL WEEK - A typical week is a week in which the library is open its regular hours, containing no holidays. It is seven consecutive calendar days, from Sunday through Saturday, or whatever days the library is open during that period. It is recommended that libraries use the methods described in Output Measures for Public Libraries, 2nd edition (ALA, 1987) for counting attendance, in-library use and reference transactions. Please report all figures for the same week if possible. Brief instructions are listed below. If you have an annual count, please divide the total by 52 weeks to report for a typical week.

ATTENDANCE IN LIBRARY FOR A TYPICAL WEEK - Report the total number of persons entering the library for a typical week including persons attending activities, meetings, and those persons requiring no staff services.

IN-LIBRARY USE OF LIBRARY MATERIALS FOR A TYPICAL WEEK Report the total number of materials utilized in the library, but not checked out. Include reference books, periodicals, book stock, and all other library materials that are used WITHIN the library.

REFERENCE TRANSACTIONS FOR A TYPICAL WEEK - Report the total number of reference transactions for a typical week.

The remainder of the questions on page A-6 may be answered by checking "yes" or "no" as appropriate. Please answer all questions.

LIBRARY PERSONNEL - 1989 - Librarian and Librarian Technician Series (Page A-7)

Librarian Series

Personnel listed in this series must be persons holding a New York State Public Librarian's Certificate. Titles listed are those found in NYLA Typical Class Specifications for Professional Positions in Public Libraries Under Civil Service (Revised February 1974), and are for persons holding a New York State Public Librarian's Certificate, whether provisional or permanent, and performing professional duties. The personnel information breakdown is that used by the Federal National Center for Education Statistics in its Library Information Gathering System (LIBGIS).

Library Technician Series

Personnel listed in this series may hold an MLS and/or may be performing professional duties, but they do not hold a New York State Public Librarian's Certificate. A Library Director that does not hold a Public Librarian's Certificate should be listed under "Library Director" in this series. Please specify "Other" titles. Use additional sheets as necessary.

Please complete LIBRARY PERSONNEL chart as follows:

Column 1 - 1989 Positions Budgeted. Give the number of positions budgeted in full-time equivalents. Show to one decimal place.

Column 2 - As of 12/31/89 show the number of females and males in full-time filled positions in the librarian series.

Column 3 - As of 12/31/89 show the number of females and males in part-time filled positions in the librarian series.

Column 4 - Convert the figures of Column 3 into full-time equivalents. Show to one decimal place.

a. A part-time employee who works 20 hours per week in a library having a 40-hour work week is computed as follows: 20 divided by 40 equals .5 FTE.
b. A part-time employee who works 20 hours per week in a library having a 30-hour work week is computed as follows: 20 divided by 30 equals .7 FTE.
c. An employee who works in a library on a full-time basis during one half of the fiscal year would be counted as one part-time employee in Column 3 and .5 FTE in Column 4.

Column 5 - The sum of Column 2 (full-time females plus males) and Column 4 (full-time equivalents of part-time females plus males).

Columns 6, 7, 8, and 9 - Report only the highest degree held. Report the total number of staff for each title who hold an MLS in column 6. Report the total number of staff for each title who hold a graduate degree other than an MLS in column 7. Report the total number of staff for each title who hold a Bachelor's degree in column 8. Report the total number of staff without a graduate or Bachelor's degree in column 9 (Other). The total of columns 6, 7, 8 and 9 should equal the total of columns 2 and 3.

SALARY RANGE - Record the library's beginning salary and maximum salary for each title in 1989.

LIBRARY PERSONNEL - 1989 - Support Series (Page A-8)

Personnel listed in this series are the people who support, in various capacities, the librarians and library technicians on the staff. According to the LIBGIS definition, a librarian is "a staff member doing work that requires professional training and skill in the theoretical and/or scientific aspect of library work, as distinct from its mechanical or clerical aspect". Other staff members, therefore, should be listed in the support series. Columns 1 through 5 should be answered in the same fashion as the instructions for the Librarian Series. For titles not listed, please specify under - "Other". Use additional sheets as necessary.

Clerical Staff Series

Titles listed are those found in NYLA Typical Class Specifications for Clerical & Supportive Staff Positions in Public & School Libraries Under Civil Service... (Revised November 1975). For civil service clerical titles not in the library series, such as secretary, stenographer, driver, film inspector, AV technician, etc. please specify under "other".

Other Support Staff

List other staff positions which do not fall under librarian, library technician, clerical series or building maintenance and operation. Some examples are: systems analyst, programmer, business manager, public relations person, accountant, secretary, driver, AV technician, etc.

Bindery Staff

Libraries which maintain a bindery should list the bindery staff as a subcategory of "Other Support Staff".

Building Maintenance and Operation Staff

List all custodial staff, building guards, etc.

Volunteers

List total number of volunteers working on a scheduled basis.

ADDITIONAL PERSONNEL DATA - Brooklyn, Buffalo-Erie, New York - Branch and Research, Onondaga and Queens Public Libraries: Reply to all questions.

HOURS AND SALARIES - For questions 1 and 3, report the number of hours for a typical work week in 1990. A typical week is a week in which the library is open its regular hours, containing no holidays. Include all hours a full time staff person works, even if the library is not open to the public.

Example: Library A is open to the public 30 hours a week. In addition to working those 30 hours, the Library Director also works 8 hours a week when the library is closed to the public. A full time staff member in Library A works 38 hours a week.

For question 2, if the library does not employ a certified librarian, insert a zero (0).

For question 4, if there is no set "annual" salary figure for the Library Director, then multiply the 1990 hourly salary by the number of hours worked in a typical week by 52 weeks.

Example: The director of Library B makes $12.00 an hour and works 25 hours a week. The 1990 current annual salary is ($12.00 x 25 x 52) or $15,600.

INTRODUCTION

PUBLIC AND ASSOCIATION LIBRARIES STATISTICS 1988 is compiled from information supplied by public libraries and systems throughout New York State. Forms were sent by the New York State Library to the designated systems and libraries in November 1988 with the request for return by February 1, 1989. Ninety percent of the completed forms were returned by April 14, 1989 and the last report was received in complete and correct form on July 31, 1989. Data were verified at system headquarters and at the State Library. The data were compiled on the Division of Library Development Computer and the printouts thereof constitute statistical tables II, III, IV, and V.

Statistics for the 731 libraries in systems are grouped by system in Table III and those for the three libraries which are not members of systems appear on Table IV. To help the user locate information on specific libraries, indexes of counties and libraries appear in appendices. Summaries of the 1988 statistics appear in Table II and are compared with those of earlier years in Table I.

Education Law and Commissioner's Regulations require the submission of annual reports by all libraries and systems in order that they retain their registration status and be eligible for public funding. It is our hope that the publication of these statistics will be helpful to library administrators and staff, to members of governing boards, and to others who make decisions on library resources and services.

We thank all persons who supplied and all who assisted in verifying, checking, and compiling it. Accuracy is critical to the usefulness of this publication and notes of omission and errors are invited.

REFERENCE NOTES

TABLES I,
II, IIIB,
IIIC, IVB

All 1957, 1986, and 1987 figures were taken from TABLE I, Public and Library Association Statistics, for designated years.

1957 is used as the base year since this is the year preceding the 1958 State Aid Law, which provided for the establishment of the cooperative systems comparison.

"Population Served by Systems and Nonsystem Libraries." Taken from the 1980 Census of Population and Housing, Final Population and Housing Unit Counts, issued March 1981, revised March 1983, U.S. Department of Commerce, Bureau of Census; school district population as prepared 5/14/84 by the New York State Data Center, NYS Department of Commerce, using the 1980 CENSUS OF POPULATION AND HOUSING.

State Aid received under Education Law, excluding administrative costs of the New York State Library.

Adjusted Disbursements exclude Cash Grants to member libraries from the system Total Disbursements and disbursements for Contracts With Other Libraries from system and member library Total Operating Disbursements.

GENERAL

Brooklyn, New York, Queens Borough include both system headquarters and branch libraries or central library on all tables.

Ulster County is served jointly by Ramapo-Catskill and Mid-Hudson Library Systems.

Central Libraries are designated by an asterisk (*) and Co-central libraries by a double asterisk (**) on all tables.

If for any reason the figures on the 1988 report differ from those on the 1987 report, please footnote and explain the difference. Figures may differ because a new inventory has been taken, because a mistake was made in last year's report, etc.

MICROFORM. Microfilm has been discontinued as a separate category in the Annual Report. Microform (microfilm, microcard, microfiche) is now included within the count of the various types of materials. For example, a microcopy of a volume of adult nonfiction is counted as a title and volume f Adult Nonfiction under Book Stock.

BOOK STOCK - A library's collection of books (including paperbound books) and other materials which is prepared and recorded in the same manner as books. These books and materials must be cataloged and available for use. Foreign language books and books on rental shelves should be included in Adult (or Juvenile) Fiction or Nonfiction. Young Adult books should be included with the Adult collection. Do not include bound periodicals in Book Stock. See also definitions of MICROFORM, SERIALS COLLECTION and GOVERNMENT DOCUMENTS.

TITLES - For this report, a title is a book holding for which a separate shelflist card has been made. Thus, six copies of the same edition of a book count as one title; two editions of the same title count as two titles; a set of six books which have been cataloged as separates count as six titles; a set of books (i.e., an encyclopedia) cataloged as a set counts as one title; and two sets of the same edition cataloged as sets (i.e., two sets of Americana, 1972) count as one title. Enter the number of different titles held, added by purchases and gifts, and withdrawn.

A library which cannot easily count the number of shelflist cards (or physical items) in each category, may wish to establish a title count base in the following manner.

1. Count the number of titles in 1 inch of shelflist.
2. Repeat step 1 at random intervals throughout the shelflist.
3. Average the number of titles per inch.
4. Multiply the average titles per inch by the number of inches of cards in the shelflist.

After the base count is established make an actual count of titles added and withdrawn in subsequent years.

VOLUMES - Enter the number of volumes held, added by purchase and gifts, and withdrawn, including duplicate copies of titles and the number of volumes in sets of books.

SERIALS COLLECTION - A serial is a publication issued in successive parts, usually at regular intervals, and as a rule, intended to be continued indefinitely. Serials include periodicals, newspapers, annuals (reports, yearbooks, etc.), memoirs, proceedings, and transactions of societies; they may include monographic and publishers' series. See also definitions of MICROFORM and GOVERNMENT DOCUMENTS.

BIBLIOGRAPHIC VOLUMES - A bibliographic volume is the unit established by the publisher as a volume. Enter the number of bibliographic volumes held, added by purchase and gifts, and withdrawn, including duplicate copies of volumes, regardless of whether the material is bound, unbound, or on microform. See the Faxon serials catalog which lists bibliographic volumes for periodicals.

CURRENT SUBSCRIPTION TITLES - Enter the number of different subscriptions held as of December 31, 1988. Two subscriptions to the same serial count as one title.

OTHER SERIALS - Enter here the current subscription titles and bibliographic volumes for serials other than periodicals and newspapers (see definition of SERIALS COLLECTION above) held in a serials section of the library and not counted as Book Stock. Other Serials bought occasionally rather than on standing order and cataloged as Book Stock may be counted as Book Stock.

PAGE A-3 (cont'd)

GOVERNMENT DOCUMENTS - Government documents held in a separate documents section of the library are counted as Documents. Documents which are fully cataloged and intershelved with books are counted as Book Stock. Periodicals which bear a government imprint but are treated as part of the periodicals collection are counted as Periodicals. Documents held in vertical files with other ephemera are counted as Pamphlets.

CIRCULATION - Circulation for home use should be accurately recorded. Count one for each loan of book, serial, or nonbook item.

Libraries using transaction cards may make adjustments as needed. An item renewed under library rules should be counted as an additional circulation. Items loaned to schools or other institutions for circulation by the school or institution are counted as one circulation per item (the initial loan to the school or institution). Items sent from one agency of a library to another, i.e., from main library to a branch, are not counted as circulation.

PAPERBOUND BOOKS - Libraries circulating paperbound books which are not cataloged should enter the total at the bottom of page 3 of the report.

MICROFORM - The Federal Government and the American Library Association are now interested in knowing the number of titles of books and periodicals which a library holds in microform. They also want to know the number of physical items of microform held in newspapers, other serials, and other itemized nonbook materials (i.e., microform holdings other than books and periodicals.

PAGE A-4

Questions on location in the library are not reference questions. Request for "a good book of criticism of American art," "height of Empire State Building," or "how to set up a system of accounts for a small business" are to be counted as reference questions.

INSTRUCTIONS FOR THE ANNUAL REPORT
OF
PUBLIC LIBRARY SYSTEMS - 1988

GENERAL

This annual report is to be returned to Library Development by February 1, 1989.

The system report covers the activities of the system only. In the printed statistical report for 1988 the individual annual reports of the member libraries of federated or cooperative systems will be consolidated by system.

Consolidated systems will find some parts of the report not applicable. Please complete as much as possible.

PAGES A-1 and A-2

STREET AND MAILING ADDRESS - Be sure to include Zip Code.
Review data on address label for accuracy and make necessary changes.
POPULATION SERVED BY SYSTEM - Use 1980 census figures.
COUNTY (IES) SERVED BY SYSTEM - Report name(s) of county(ies) served.
NUMBER OF MEMBER LIBRARIES - Number of chartered units which are members of cooperative or federated library systems as of December 31, 1988.
NUMBER OF OTHER PUBLIC SERVICE OUTLETS: REGISTERED AND UNREGISTERED BRANCHES, DEPOSIT STATIONS, READING CENTERS, BOOKMOBILES, ETC. - Report numbers in spaces provided. Attach bookmobile schedule and list of locations of other outlets.
CERTIFICATION - Please be sure that original signature of the Director appears on all copies submitted to Library Development.

SYSTEM HOLDINGS AND CIRCULATION

NOTE: LIBRARY HOLDINGS - From the 1987 Annual Report, transfer Holdings, December 31, 1987 of all types of materials, to the 1988 Annual Report under Holdings, December 31, 1987. If for any reason the figures on the 1988 report differ from those on the 1987 report, please footnote and explain the difference. Figures may differ because a new inventory has been taken, because a mistake was made in last year's report, etc.

MICROFORM - For use in the printed PUBLIC AND ASSOCIATION LIBRARIES STATISTICS microform (microfilm, microcard, microfiche) is included within the count of the various types of materials. For example, a microcopy of a volume of Adult Nonfiction is counted as a Title and a volume of Adult Nonfiction under Book Stock. There is a separate section on microform, see page A-2.

HOLDINGS - Library materials to which the system retains title and which are not reported by a member library. This should include all materials given to the system under the Central Book Aid (CBA) program. This may also include materials secured through Federal programs such as LSCA and ESEA.

BOOK STOCK - The system's collection of books and other materials which are prepared and recorded in the same manner as books. These books and materials must be cataloged and available for use. Foreign language books should be included in Adult (or Juvenile) Fiction or Nonfiction. Young Adult books should be included with the Adult collection. Do not include bound periodicals in Book Stock. See also definitions of MICROFORM, SERIALS COLLECTIONS, AND GOVERNMENT DOCUMENTS.

TITLES - For this report, a title is a book holding for which a separate shelflist card has been made. Thus, six copies of the same edition of a book count as one title; two editions of the same title count as two titles; a set of six books which has been cataloged as separates counts as one title; and two sets of the same edition cataloged as sets (i.e., two sets of AMERICANA, 1972) count as one title. Enter the number of different titles held, added by purchases and gifts, and withdrawn.

A system which cannot easily count the number of shelflist cards (or physical items) in each category, may wish to establish a title count base in the following manner:

1. Count the number of titles in 1 inch of shelflist cards.
2. Repeat step 1 at random intervals throughout the shelflist.
3. Average the number of titles per inch.
4. Multiply the average titles per inch by the number of inches of cards in the shelflist.

After the base count is established make an actual count of titles added and withdrawn in subsequent years.

VOLUMES - Enter the number of volumes held, added by purchase and gifts, and withdrawn, including duplicate copies of titles and the number of volumes in sets of books.

SERIALS COLLECTION - A serial is a publication issued in successive parts, usually at regular intervals, and as a rule, intended to be continued indefinitely. Serials include periodicals, newspapers, annuals (reports, yearbooks, etc.), memoirs, proceedings and transactions of societies; they may include monographic and publishers' series. See also definitions of MICROFORM and GOVERNMENT DOCUMENTS.

CURRENT SUBSCRIPTION TITLES - Enter the number of different subscriptions held, added by purchase and gifts, and withdrawn. Two subscriptions to the same serial count as one title.

BIBLIOGRAPHIC VOLUMES - A bibliographic volume is the unit established by the publisher as a volume. Enter the number of bibliographic volumes held, added by purchase and gifts, and withdrawn, including duplicate copies of volumes, regardless of whether the material is bound, unbound, or on microfilm or microcards.

OTHER SERIALS - Enter here the current subscription titles and bibliographic volumes for serials other than periodicals and newspapers (see definition of SERIALS COLLECTION) held in a serials section of the library and not counted as Book Stock. Other serials bought occasionally rather than on standing order and cataloged as Book Stock may be counted as Book Stock.

PAPERBOUND BOOKS - Libraries circulating paperbound books which are not cataloged should enter the total at the bottom of page A-2 of the report.

MICROFORM - The Federal Government and the American Library Association are now interested in knowing the number of titles of books and periodicals which a library holds in microform. They also want to know the number of physical items of microform held in newspapers, other serials, and other itemized nonbook materials (i.e., microform holdings other than books and periodicals).

NONBOOK MATERIALS - Those library materials which do not meet the definition of a book or a serial, such as audiovisual materials, vertical file materials, and any other material the form of which requires special handling.

AUDIOVISUAL MATERIALS - Nonbook library materials, such as films, filmstrips, slides, recordings (tapes or discs), video cassettes and video discs which require the use of special equipment in order to be seen or heard.

PHYSICAL ITEMS - Number of reels of film, filmstrips, slides, recordings (discs or tapes), video cassettes, or video discs held in collection.

TITLES - Number of TITLES of films, filmstrips, slides, recordings (discs or tapes), video cassettes, or video discs held in collection.

PRINTS - Number of COPIES of films, filmstrips, slides, recordings (discs or tapes), video cassettes, or video discs held in collection.

MATERIALS FOR THE BLIND - Includes talking books, Braille material, and other Materials for the Blind(to be specified). List only materials actually owned by library. Do not report material on loan or deposit. Report Large Type books in Book Stock.

PHYSICAL ITEMS - Number of discs or tapes, Braille volumes, and other materials held in collection.

TITLES - Number of TITLES of discs or tapes, Braille volumes, and other materials held in collection.

PRINTS - Number of COPIES of discs or tapes, Braille volumes, and other materials held in collection.

EXAMPLES: A set of 25 slides called ART WORKS IN THE NATIONAL MUSEUM would be counted as 25 Physical items and 1 Title.

A recording of CARMEN on three discs would be counted as 3 Physical items and 1 Title.

OTHER ITEMIZED NONBOOK MATERIALS - Includes pamphlets, documents, catalogs, manuscripts, sheet music, maps, pictures and photographs, framed pictures, microcomputer software, and other (to be specified).

GOVERNMENT DOCUMENTS - Government documents held in a separate documents section of the library are counted as Documents. Documents which are fully cataloged and intershelved with books are counted as Book Stock. Periodicals which bear a government imprint but are treated as part of the periodicals collection are counted as Periodicals. Documents held in vertical files with other ephemera are counted as Pamphlets.

CIRCULATION - Direct circulation to system headquarters staff and to patrons handled by the system. Do not include here materials sent to member libraries. See page A-3. Two separate reportings of circulation statistics are requested: 1) by books, serials, and nonbook materials; and 2) by total bookmobile circulation and total circulation in other outlets. Systems using transaction cards may make adjustments as needed.

PAGE A-3

INTERLIBRARY LOAN MATERIALS BORROWED FOR SYSTEM PATRONS should be used to record materials borrowed by the system as the result of a specific author, title, or subject request for use by the system headquarters staff or for patrons handled by the system. Do not include here materials sent to member libraries.

INTERLIBRARY LOAN MATERIALS SUPPLIED should be used to record intrasystem materials sent to member libraries as the result of a specific author, title, or subject request made by an individual patron. Do not include rotating collections as a part of these figures.

UNION CATALOG - See Regulations of the Commissioner of Education, 90.3.f.Count all titles purchased with local or system funds even though they may be duplicates of titles purchased with CBA funds.

CENTRAL LIBRARY - A central library is the library in the system which has been designated in the system plan as the central library. Record the number of Adult Nonfiction volumes (not titles) in the collection, purchased with other than State funds.

SYSTEM CBA - Cumulative number of volumes added since the beginning of the Central Book Aid program.

REFERENCE QUESTION is defined as "a request for information or aid which requires the use of one or more sources to determine the answers or utilizes the professional judgment of the librarian." Requests for "a good book of criticism of American art," "height of Empire State Building," or "how to set up a system of accounts for a small business" are to be counted as reference questions. Questions should be counted at the location where they are answered.
